4.2.1 Library is automated using Integrated Library Management System (ILMS)

Name of the ILMS software: **Library Management System (Biyani Technology)**

Nature of automation (fully or partially); **Fully**

Version: **1.0.1**

Year of Automation: **2019-2020**

Library Management System

Library Management Software is more than just another latest technology solution - it is a system that will improve the way school/colleges libraries are managed. It is a Multi User system, operational on LAN environment.

The implementation of our flagship product Library Management System will help the institute to manage day to day activities more efficiently, promptly and in less time which will lead to saving in manpower, time and help transform your library into an ideal library in the area.

The software circumferences around all operations of Library in modules wise as described below in a central database and integrated approach. Management and administrators can retrieve real- time information and view all the information online.

- With this system data is entered only once and instantly available in all users and departments thus it reduces duplicate data entry and data redundancy
- The administration and day to day work can be carried out more smoothly efficiently and fast with minimum numbers of administrative staff.
- Single window to view all information of a library, their activities, purchase, issue and receipts, registers, etc Using this software the institute can have better return on investment in terms of saving of Time, Money & People. This Software will help the management use optimum level of resources

VISION- "To serve the Pharmacy Education in Tribal and Rural Community"

MISSION- To provide a Pharmacy education for backward students. To contribute the advancement of community services in Pharmacy and public health. To create a Pharmacist with Professional ethics used for better healthcare of the society.
