Ayurved hospital provides many facilities including medicines, pathological investigations, E.C.G. at minimal charges. This hospital provides disease wise diet to the patients. Multiple camps have been organized by the hospital for rendering medical services to the masses. For serving these purposes ayurveda has described five bio-purification methods which are called as panchakarma including vaman (inducing emesis), virechan (inducing purgation), nasya (nasal instillations), basti (medicated enemas) and raktamokshan (blood letting). This hospital provides these panchakarma treatments to the patients at an affordable cost.
